

Dude You Gotta Move! – Biomes PBL

Online Resources: I have collected a set of valuable sites for researching biomes. I suggest you use them first. Use them to harness the Internet to fill in the missing facts. You may also use print resources and video based information. If you use a resource not listed here, document it in your cited works (bibliography) at the end of your report. If a link is broken, use your online research skills to find the site/page. Copy the title of the source. Paste it in a web search engine. Search.
