J. Harwood Biology 11

Great Transformations

| In the video, <i>Great Transformations</i> , the producers spent time providing scientific evidence for why/how tetrapods first started to inhabit land. | | | | | |
|---|--|--|--|--|--|
| Explain why the fish would have wanted to leave the water and go onto the land. Include any fossil evidence was provided in the video to support your answer. | | | | | |
| As you write, be sure to: Make sure you provide specific examples from the video in your discussion. Highlight the best explanation from the video. Include your own ideas. Write neatly and clearly. Use only the space provided. | | | | | |
